

# **CRA BOATHOUSE COVID-19 WARNING AND BOATHOUSE RULES**

**All users please note that you use this boathouse at your own risk  
and that your use puts others at risk**

It is not possible for the CRA to eliminate the risk of the spread of the Covid-19 virus, but we can minimise the risk if everyone takes responsibility not only for their own safety but for that of other users and their households.

User clubs will have agreed different policies for the use of their own equipment. Please comply fully with your own club's safety rules; the guidance from British Rowing; and government guidance about social distancing and exercise, in addition to the usual Row Safe guidance.

**Those using the CRA boathouses must comply with the following rules**

**ACT AS IF YOU HAVE THE VIRUS**

**ACT AS IF ANYONE YOU MEET HAS THE VIRUS**

***NOTE: There may be sanitiser, wipes, and paper towels available in the CRA but there will not be anyone 'on duty' to clean or sanitise the building or the equipment or able to check the availability of sanitising materials at all times***

- No-one may use the CRA boathouses without express permission from their Club
- Do not come to the boathouse if you feel unwell
- Bring your own sanitiser and use it. While all users are required to sanitise adequately after their outings, you are advised to assume that they have not done so and should sanitise for your own protection
- Wear a suitable face-covering at all times while in the boathouse before and after your outing.
- Logan's Way only: Sanitise your hands before unlocking the gate. Use the pedestrian gate, and you must re-lock the gate behind you, so it remains locked whilst you are on the water.
- Sanitise your hands before unlocking the door and entering the boathouse
- Arrive changed and ready for your outing
- Do not use the changing rooms or toilets except in an emergency. If you have to use them, wipe down all surfaces with sanitiser afterwards
- Keep at least 2m distance from any other user (unless they are members of your own household). If this means delaying your outing, be patient
- Use only the equipment which you have been allocated by your club. You may want to sanitise it before you use it.
- Register your use of the boathouse at <https://bit.ly/cra-bh-use> to enable contact tracing in the event of any user becoming ill. Owners of private boats must also sign in and out in the same way
- Close the doors while you are out on the water to prevent access by third parties
- Wipe down with sanitiser all equipment you have used (including trestles, door mechanisms etc)
- Sanitise your hands before leaving the boathouse and re-sanitise the door handle
- Be vigilant. If you see other users not complying with the rules, please remind them to do so (and report them if necessary)

- Contact the Boathouse Manager and your User Club contact immediately if you become ill with Covid-19 like symptoms within 2 weeks of using the boathouse

**If anyone is spotted disregarding these safety rules, the boathouses will be closed again for at least a week to allow for decontamination, in the interests of the safety of all users.**

**ACCESS TO THE CRA BOATHOUSES MAY BE REVOKED AT ANY TIME WITHOUT NOTICE**

**CONTACTS IN EVENT OF A PROBLEM OR CONCERN:**

Boathouse Managers:

Logan's Way - Conor Burgess: [burgess.conor@gmail.com](mailto:burgess.conor@gmail.com)

Kimberley Road - Nick Siragher: [nicksiragher@gmail.com](mailto:nicksiragher@gmail.com)

CRA Secretary - Jo Burch: [camrowassociationsecretary@gmail.com](mailto:camrowassociationsecretary@gmail.com)
